

# SPEAK LIKE A LEADER

## Finding your voice

This module focuses on the art of presenting with impact and getting your voice heard. As a professional in the legal world, you feel the need to be safe, concise and risk averse. Yet as a leader, you need to be off the cuff, creative and confident when communicating your message and influencing your audience. How much impact do you have when you speak to your non-legal audience? Whether you're advising, pitching your ideas to the business, convincing your boss or speaking up in a meeting, you need to speak with gravitas, confidence and credibility. The good news is you can learn the skills to do this. It's time to get your voice heard and:

- be visibly brilliant at your job (not just technically brilliant)
- get yourself out there and be closer to the business
- look, sound and feel confident when you speak in front of diverse audiences
- raise your individual profile as well as your teams

This session is open to all for the morning session on 24 June 2020. The afternoon session is for women only attendees.
